Quality Mounting Solutions

NEW RLTS-19
Universal LCD Rackmount
With Tilt and Swivel

*MOUNTING an LCD MONITOR INTO A CABINET?
CAN'T GET THE PROPER VIEWING ANGLE?*

LCD UP AND DOWN TILT

LCD SIDE TO SIDE SWIVEL

We all know it's important to look straight on to LCD monitors.
FEC, the company that has been serving your rackmount needs for
20 years has another solution!!

With our RLTS-19 you can mount any 14"-19" LCD monitor with rear 75mm or 100mm VESA patterns into any cabinet and adjust to the ultimate viewing position. You can even mount larger LCDs if protrusion from the front is not a problem.

HOW?

FEC's model RLTS-19 universal mount allows you to adjust the viewing position of the LCD monitor in 2 ways. You can adjust the tilt of the LCD up to 15 degrees up and 15 degrees down. Plus, with the RLTS-19, you can swivel the LCD side to side for the optimal viewing angle.
